Colby Broussard- Athletic Director
Leigha St. John- Nurse
Jessica Johnson- Community Member
KaSandra Burk- Secondary MathTeacher
Kassie Davis- Elementary Teacher
Kathy Tyson- Elementary Math Teacher
Kelly Obermier- Special Education Director

Agenda Item 1- Covid Guidelines- the committee reviewed the current guidelines and made no changes. Students who test positive for Covid remain off campus until doctor approval to return to school and symptoms have subsided. Cases have declined this school year. We have only had a few students test positive, but the doctor released them to return to school 3 days later.

Item 2- Vaping- Parents have expressed concerns for students being able to obtain vaping products online without any forms of identification. We discussed the need for education for students on the harmful impacts of vaping on their minds and body. Mrs. St. John suggested contacting Serenity House for sessions on drugs and vaping.

Item 3- Review of the Wellness Policy- The district does a great job of ensuring students are educated about healthy eating habits and making sure the food options available to during the school day are healthy. Parents are provided healthy lists of options for parties and other school events. The committee discussed the Fitness Gram and the purchase of programs to ensure records are kept digitally rather than on paper. Indoor recess options are offered to students when weather does not permit outdoor time. GoNoodle website has indoor recess videos that are utilized and students are able to be active in the gym. A monthly newsletter is sent to parents and community members that discusses healthy options for food, fitness activities, illness prevention, and the dangers of vaping and drugs on teens.
